Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Monica is interested in finding a treasure but the key to opening is to get the sum of the main diagonal elements and secondary diagonal elements.

Write a program to help Monica find the diagonal sum of a square 2D array.

Note: The main diagonal of the array consists of the elements traversing from the top-left corner to the bottom-right corner. The secondary diagonal includes elements from the top-right corner to the bottom-left corner.

Input Format

The first line of input consists of an integer N, representing the number of rows and columns.

The following N lines consist of N space-separated integers, representing the 2D array elements.

Output Format

The first line of output prints "Sum of the main diagonal: " followed by an integer, representing the sum of the main diagonal.

The second line prints "Sum of the secondary diagonal: " followed by an integer, representing the sum of the secondary diagonal.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3

1 2 3

4 5 6

7 8 9

Output: Sum of the main diagonal: 15

Sum of the secondary diagonal: 15

Answer

// You are using Java

```
import java.util.*;
```

```
class main
```

```
{
```

```
    public static void main(String args[])
```

```
    {
```

```
        Scanner s = new Scanner(System.in);
```

```
        int n = s.nextInt();
```

```
        int sum1=0;
```

```
        int sum2=0;
```

```
        int[][] a = new int[n][n];
```

```
        for(int i=0;i<n;i++)
```

```
        {
```

```
            for(int j=0;j<n;j++)
```

```
            {
```

```
                a[i][j]=s.nextInt();
```

```
            }
```

```
        }
```

```
for(int i=0;i<n;i++)
{
    for(int j=0;j<n;j++)
    {
        if(i==j)
        {
            sum1+=a[i][j];
        }
        if(i+j==(n-1))
        {
            sum2+=a[i][j];
        }
    }
}
System.out.println("Sum of the main diagonal: "+sum1);
System.out.println("Sum of the secondary diagonal: "+sum2);
}
```

Status : Correct

Marks : 10/10
